

V22-182

V22-182

Reference: Bradtmiller et al. 2007

Depth: Depth intervals NOT specified in paper: assume 2cm

Age: Assuming age is center. Age is total carbonates ^{14}C , corrected for $\delta^{13}\text{C}$ -400 years (Mix & Ruddiman, 1985)

Age error: assume 6.8% (1 sigma)

SBMAR: ^{230}Th

SBMAR error: assume 5% (1 sigma)

EC: ^{232}Th -based dust concentration (10.0 ppm ^{230}Th in dust; $1/0.242530074 \text{ dpm} \rightarrow \text{ppm}$)

EC error: assume 15% (1 sigma). Includes ^{232}Th analytical error and error in ^{232}Th as dust proxy
