Dear Dr. Kuehn and co-authors,

Thank you for responding in detail to the many thought- and helpful referee comments. I am pleased that you seem to embrace the referee suggestions to further improve your paper and encourage you to implement changes in your revisions, as you have announced in your responses.

Please note that I plan to send the revised manuscript again to Referee #2 for checking

C1617

whether the more substantial concerns are sufficiently well addressed to allow publication or whether issues remain that need to be addressed further.

I look forward to receiving the revised manuscript until 18 October 2014.

With kind regards, Thorsten Kiefer
