

Interactive comment on “Sensitivity simulations with direct radiative forcing by aeolian dust during glacial cycles” by E. Bauer and A. Ganopolski

M. Claussen (Editor)

martin.claussen@mpimet.mpg.de

Received and published: 14 April 2014

The referees support publication of this manuscript after revision whereby one referee asks for minor revision, the other, for major revision. Hence the authors are welcome to submit a carefully revised manuscript and detailed, point-by-point response to the referees' comment. One referee will review the revised manuscript.
