Received and published: 22 February 2015

Dear Dr W. Feldmeijer I read your answers to the reviews, with interest (very late because I got first a message of interruption of the review process: sorry for that). From your two answers it appears that you have made significant changes on the manuscript. Your answers to the referees appears to be valid. Although it came after the peer review has been interrupted on January 4th, I will try to reactivate this manuscript to able you to submit it to Climate of the Past. Then it will be sent to a second run of review. Yours sincerely Luc Beaufort
