8th September 2015

Dear Editor,

We have addressed individual comments raised by the two reviewers on the manuscript (numbered cp-2014-152), and have provided specific responses to each comment indicating the changes made. We are also attaching to this response two annotated word documents that highlights modifications made in the main body of the manuscript and in the Supplementary material. The files include the new versions of Figures that were modified according to reviewers' suggestions. We have additionally updated the title

C1597

of the manuscript to reflect the main findings of the paper. The paper is now entitled "Increased aridity in southwestern Africa during the warmest periods of the last interglacial". We hope you will find the responses sufficient in detail, and we look forward to hearing back from you with your decision.

Best wishes,

Dunia H. Urrego Corresponding author
