Received and published: 24 September 2015

Dear authors, Both reviewers made severe comments about your manuscript, and they presently are not in high support for a final publication in Climate of the Past. As the discussion phase is still open I am strongly recommending you to reply right now to both reviews and argue accurately before considering any kind of revision. Looking forward to reading your replies. All the very best denis-didier Rousseau Climate of the Past Co-Editor in Chief
