Received and published: 3 October 2015

On September 7, 2015, I received a personal message from Dr. Jose Ignacio Martinez, the lead author of this contribution, indicating that the authors have declined to submit the revised version of the manuscript entitled: “Atlantic Multidecadal Oscillation (AMO) forcing on the late Holocene Cauca paleolake, northern Andes of Colombia” (CP-2015-40) to Climate of the Past. In consequence, the editors of this Special Issue proceed to close the paper discussion and withdraw the submission of this contribution to Climate of the Past.
