Received and published: 12 November 2015

Dear authors,

After examining the comments of the three reviewers, we can see that your paper have been positively received especially concerning the novelty of your data in the Malta area which will brought new insights in this part of the Mediterranean. Nevertheless, the reviewers addressed a lot of comments and questions.

In that way, I encourage you to reply to the reviewers indicating how you intend to adapt the manuscript in order to take into account their remarks. After seeing your replies to reviewers, I can make an editorial decision.

Sincerely

C2277

Nathalie Combourieu-Nebout
