

Interactive comment on “Expanding HadISD: quality-controlled, sub-daily station data from 1931” by R. J. H. Dunn et al.

M.F. Loutre (Editor)

marie-france.loutre@pages.unibe.ch

Received and published: 15 September 2016

Based on the reviewers comments the editor acknowledges the excellent quality of the paper. However it was suggested that the paper would better fit the scope of Geoscientific Instrumentation, Methods and Data Systems. Therefore the CP and GI editors agreed that this paper should be transferred to GI. The most recent revised version of the paper is now available at <http://www.geosci-instrum-method-data-syst-discuss.net/gi-2016-9/>
