Received and published: 8 May 2015

Dear Authors.

the reviewers of your paper agree that it requires major revisions in order to be published in CP. However, they see potential for the paper. You are now required to reply in detail to the reviews, and are encouraged to prepare a revised manuscript. In particular, I suggest not only replying to comments referring to your paper, but also commenting on the relation of your paper to the companion paper (Fujita et al.).

Best Regards, Volker Rath
