

Interactive comment on “Eliminating the “divergence problem” at Alaska’s northern treeline” by M. Wilmking and J. Singh

M. Wilmking and J. Singh

Received and published: 31 July 2008

Dear Editor,

thank you for commenting on our paper in CPD. As main author, I am wondering if it is customary to only have one review in CPD and have the editor make a final decision before the end of the open discussion? I am not that familiar with the procedures in open access discussion style journals, and would be more than grateful for a reply,

thanks

Martin Wilmking
