Interactive comment on “Variability of summer precipitation over eastern China during the last millennium” by C. Shen et al.

Z. Guo (Editor)

ztguo@mail.igcas.ac.cn

Received and published: 3 October 2008

I agree with the two referees that the paper needs a major revision for being published in CP. Although the authors have made correspondent efforts for such a revision, I suggest sending the revised version to the two referees for a second review.
