

Interactive comment on “How did Marine Isotope Stage 3 and Last Glacial Maximum climates differ? Perspectives from equilibrium simulations” by C. J. Van Meerbeeck et al.

D. Rousseau (Editor)

Denis.Rousseau@lmd.ens.fr

Received and published: 11 January 2009

Dear Cedric, Thanks for providing detailed replies to the two different reviews. This is very much appreciated and I thank you for following the reviewers comments and recommendations. Therefore I am looking forward to reading your revised manuscript. This is the usual way for considering it for final publication in Climate of the Past.

All the very best and thanks you again for considering our journal for publishing your results.
