Interactive comment on “Modeling geologically abrupt climate changes in the Miocene” by B. J. Haupt and D. Seidov

B. J. Haupt and D. Seidov

bjhaupt@psu.edu

Received and published: 12 January 2011

We are very thankful to Gerald Dickens and the anonymous referee for interesting and constructive comments. We are working on improving the manuscript to address their criticism. We plan to add a new figure and some relevant references, as well as updating the current figures, figure captions, and editing the text. We are also working on the text to take into account all technical comments. The corrected and revised manuscript will be uploaded to the CPD site soon.
