## ***Interactive comment on “Dynamics of ~100-kyr glacial cycles during the early Miocene” by D. Liebrand et al.***

**L. Beaufort (Editor)**

beaufort@cerege.fr

Received and published: 10 June 2011

Both referees comments have been now received on the paper during the Discussion Phase. Those comments are positive. Nevertheless, the referees raise a number of points and suggestions. I encourage the authors answer those comments. This should follow the standard CP procedure, i.e. respond to all parts of the Referee Comments in an Author Comment and to revise the manuscript accordingly. I look forward to receiving the response and revised manuscript no later than July 1st 2011.
