We would like to thank Dr. Friedrich for bringing to our attention the new references on the dating of the eruption of the Santorini volcano. We would be happy to include them in the revised manuscript and also to discuss in more detail the dating in Friedrich et al (2006).

Could the referee tell us what is the dating from the second olive tree? We don't have access to Friedrich (2009) and Heinemeier et al (2009). We assume it is very close to that in Friedrich et al (2006) but we would like to make sure.
