Received and published: 21 December 2011

Dear Dr. Mundo and colleagues,

The open discussion of your manuscript “Multi-century tree-ring based reconstruction of the Neuquén River streamflow, northern Patagonia, Argentina” is now closed and the review of two referees is completed. You will find that both of the external reviewers share our opinion that this is a very good article and recommend accepting the publication of your manuscript with minor revisions.

In order to proceed with the publication of your article, I ask you to address and reply all referees comments and prepare a final version of your revised manuscript. Please

C2118

note that all comments have to be answered in the public discussion.

Your sincerely,

Duncan Christie Guest Editor Climate of the Past
