Dear Dr Christiansen and Dr Ljungqvist,

The open discussion phase of your manuscript titled "The extra-tropical NH temperature in the last two millennia: Reconstructions of low-frequency variability" has now closed. I appreciate your rapid responses to the reviewer and open discussion comments that have been posted during the discussion phase and can see that you have clear ideas for how to address the constructive comments that have been made.

I encourage you now to prepare a revised version of your manuscript to be submitted to Climate of the Past, along with an author response letter (which should be

posted on the interactive discussion) addressing all of the comments raised in the discussion phase and giving details of associated revisions that have been made to the manuscript. These are due to be received by 11th February but please get in touch if you have any problems with meeting this deadline.

Sincerely, Nerilie Abram
