Dear authors,

you have now received two comments by reviewers and a short comment. The short comment was essentially positive. Both reviewers considered this study to be a very interesting one, well suited for publication in Climate of the Past. However, both came to the conclusion that the ms. needs to be improved, before it can be published and therefore ask for major revisions. Please reply to all the points raised by the reviewers and submit a revised version. This version will then again be sent to the reviewers.

Sincerely Yours

Uwe Mikolajewicz
