Received and published: 30 September 2012

Dear Authors,

your submission to CPD has now been reviewed by three referees. You are now required to publish a detailed response to their comments. All three agree that this is an interesting contribution, and should be published in CP. I encourage you to submit a revised version of the manuscript to CP, in particular taking into account the more critical comments of reviewer 2.

C1758

Looking forward to receive the revised manuscript,

Volker Rath
