Dear Viviane, We received by now the two reviews. I apologize for the unusual delay but I have been facing denials for review as well as colleagues willing to review your manuscript but who never, although I contacted them, released any report. So again all my sincere apologies. While reviewer #2 recommend some improvements in the text, reviewer 1 is more critical and I am requesting you to carefully consider the comments and suggestions and release argued replies to the reviews before submitting a revised version.

All the very best and thanks for submitting your manuscript to Climate of the Past.
