Received and published: 27 February 2013

Dear referee 2, dear editor,

Thank you for all your comments.

I am please to submit a revised version of our manuscript, " Using data assimilation to investigate the causes of Southern Hemisphere high latitude cooling from 10 to 8 ka BP ".

I want also to apologize for long re-submission delay.

You could find in supplement my reply to all the points highlighted by the referee.

C3462

Best regards,

Pierre Mathiot and co-authors
