Dear authors,

Two reviewers posted their comments about your paper. Both agree that the paper is of good quality and is worth being published. They both gave comments that I invite you to read carefully. In particular they both raised the issue of ‘resolution’. Moreover, referee#2 gave some suggestions to reorganise section 3 of the paper. They are also some specific comments giving some practical suggestions to improve the paper and some technical comments.

I invite you to address these comments in your final response and I encourage you to
