

Interactive comment on “The initiation of Neoproterozoic “snowball” climates in CCSM3: the influence of paleo-continental configuration” by Y. Liu et al.

A. M. Haywood (Editor)

eamrh@leeds.ac.uk

Received and published: 8 October 2013

My thanks to the two reviewers for their thoughtful comments on the original paper.

In my opinion the authors have responded well. The proposed modifications to the paper are quite extensive and will deliver the essential elements of the reviewer’s suggestions.

The authors are invited to submit a revised version of the manuscript.

Many thanks,

Alan Haywood.
