Received and published: 9 October 2013

Dear Editor,

On behalf of my two co-authors and I, I would like to thank the two Referees for their time and constructive comments on our work. Please find below a cumulative point-by-point response to the comments arisen during the peer-review process. As you will see in the “response to Referees” letter attached as a Supplement, we dealt with all the points the Referees raised, and welcomed most of their comments and suggestions to improve our manuscript.

As per your instructions, the submission of a revised manuscript incorporating the necessary changes is to follow in the near future.

We look forward to hearing from you.

With all good wishes,

M. Hermoso
