

## ***Interactive comment on “Assessing the impact of Laurentide Ice-Sheet topography on glacial climate” by D. J. Ullman et al.***

**D. J. Ullman et al.**

dullman@coas.oregonstate.edu

Received and published: 30 October 2013

It appears as though the review by Dr. Siddall was posted twice (once as a "short comment" and once as a "referee comment"). Our full response can be found in association with the "Referee Comment."
