Dear Authors,

Your paper has been evaluated by two referees. They are positive about your work and I would thus be happy to consider a revised version for publication in Climate of the Past. In this revised version, please take carefully into account all the comments made by the referees, in particular the suggestions to improve the clarity of the presentation as well as the remarks related to the potential caveats of the 20th Century Reanalysis and to the interest of introducing the two new indices WADP and AWAVE.

Thanks again for submitting your work to Climate of the Past.

C2492

Hugues Goosse
