Received and published: 25 March 2013

First of all, we would like to thank the two anonymous reviewers for their suggestions and comments. They will surely improve the quality of the manuscript.

Unfortunately, I will not be able to finalize an author comment and to submit a revised manuscript in the near future, as I will participate in the deep drilling campaign at Lake Ohrid, starting this week. However, I will try to work on the revised version and on the authors comments during the field work and submit them as soon as possible.

Best wishes

C258

Alexander Francke
