We thank Anonymous Referee #2 for the critical comments regarding the paleomagnetic interpretation and correlation between ODP Site 1218 and IODP Sites U1333/U1334 as well as the concern about the quality and documentation of paleomagnetic data from ODP Sites 1052, 1172 and 1260.

Please find in the pdf our reply to issues Anonymous Referee #2 raised and the corrections we suggest for the manuscript.

Kind Regards, Thomas Westerhold
