Received and published: 25 April 2014

Dear Editor:

Enclosed please find an electronic copy of our 2nd revised manuscript "Stalagmite-inferred variability of the Asian summer monsoon during the penultimate glacial/interglacial period" by Li et al. (CP-2003-170). We would like to submit it as an article to the special issue entitled "Western Pacific paleoceanography - an ocean history perspective on climate variability at orbital to centennial scales". The material

C3695

in this submission includes: (1) main text, (2) six figures, and (3) one table. None of the material has been published or is under consideration elsewhere, including the internet. We are pleased by the very positive and constructive nature of Editor's reviews. We have made attempt to incorporate suggestions and comments. Please see the details of our implementation of the review in the attached file. If this manuscript can be accepted, please consider arranging a good publication time. It will be much appreciated. Please accept our deep appreciation again for your assistance about this submission. We look forward to hearing from you.

Sincerely,

Chuan-Chou Shen Department of Geosciences, National Taiwan University No. 1, Sec. 4, Roosevelt Road, Taipei 106, Taiwan ROC. TEL: 886-2-3366-5878 FAX: 886-2-3365-1917 Email: river@ntu.edu.tw

Dear Editor:

Enclosed please find an electronic copy of our 2nd revised manuscript "Stalagmite-in the Asian summer monsoon during the penultimate glacial/interglacial period" by Li *et al.* would like to submit it as an article to the special issue entitled "Western Pacific paleoclimatic history perspective on climate variability at orbital to centennial scales". The material includes: (1) main text, (2) six figures, and (3) one table. None of the material has been published elsewhere, including the internet.

We are pleased by the very positive and constructive nature of Editor's reviews. We have incorporated suggestions and comments. Please see the details of our implementation of attached file "2nd response_to_editor_comments-cp-2003-170.pdf".

If this manuscript can be accepted, please consider arranging a good publication time. It is highly appreciated. Please accept our appreciation again for your assistance about this matter. We look forward to hearing from you.
