

Interactive comment on “The faint young Sun problem revisited with a 3-D climate-carbon model – Part 1” by G. Le Hir et al.

M. Claussen (Editor)

martin.claussen@zmaw.de

Received and published: 22 May 2013

Two referees have reviewed the manuscript. Both referees find the manuscript interesting in principle. Before considering publication of the manuscript in CP, however, major revisions have to be undertaken.

Hence I encourage the authors to carefully revise their manuscript and to meticulously respond to the referees' comment point by point. The revised manuscript will be re-reviewed by the referees.
