Received and published: 31 May 2013

Dear Michiel,

I am pleased to accept this paper subject to minor/major changes. The paper will not need to go out to reviewers again but comments including the suggestion of additional sections and figures (e.g. reviewer 1) need to be dealt with convincingly.

As reviewer 2 states, there are important first in this paper and I look forward to a revised version with your responses to all of the reviewers' comments.

Kind regards,

C989

Mark
