Received and published: 28 March 2017

Dear Nathalie Combourieu-Nebout,

Referring to your decision letter from 21st February 2017, I would like to resubmit on behalf my co-author Thomas Litt a revised version of our manuscript entitled ‘A new-resolution pollen sequence at Lake Van, Turkey: Insights into penultimate interglacial-glacial climate change on vegetation history’ to CP. We thank you and the reviewers for all constructive suggestions. We considered them all and implemented them in one revised ‘track change mode’ version and a second revised but ‘unmarked’ version.

C1

Below please find details on how we address the reviewer comments. We think the revisions improved our manuscript significantly, and hope that our manuscript in its present form will be better suited for publication in CP.

Best regards, Nadine Pickarski
