Received and published: 28 March 2017

Dear anonymous referee,

Thank you very much for all helpful suggestions. We considered all of them and implemented them in the revised manuscript. We rewrote the manuscript more clearly and added further explanations of for how the Marine Isotope Stages were referred to terrestrial temperate interval in the Lake Van area. Additional description was also made for the chronology and the final climatostratigraphic alignment of the presented Lake Van sequence. We also paid more attention by using the term 'succession'. We

C1

avoid the generalization of forest development for warm stages in the discussion.

Best regards, Nadine Pickarski
