

Interactive comment on “The early Spörer Minimum – a period of extraordinary climate and socio-economic changes in Western and Central Europe” by Chantal Camenisch et al.

Anonymous Referee #3

Received and published: 14 March 2016

- About the #8 point: I agree with you about the total absence of historical quotation.
- About specific comments: remarks very interesting and stimulating about the p.11, l.11-21, concerning the transition from magical to demonic views of weather disasters.
