

Interactive comment on “Testing the analog method in reconstructing the global mean annual temperature during the Common Era” by Juan José Gómez-Navarro et al.

J. Guiot (Editor)

guiot@cerege.fr

Received and published: 13 December 2016

Dear authors,

We have now the comments of two reviewers. Both are positive but they request corrections before the paper can be published. I ask you to post answers to these comments and to prepare a revised manuscript (in track change mode) that you will include with the answers.

Best regards

Joel Guiot, editor
