Received and published: 5 February 2018

Dear authors,

We have now received the comment of the reviewers. Both reviews underline the potential of your research and the interest of your data. nevertheless one of them seems very critical about your tests. Take carefully attention on this point.

Please post your replies to all the comments on the discussion forum that explain how you want to amend your manuscript following the reviewer suggestions and answer to the critical comments. I would like to see your responses in track mode change.

I will give my decision on the basis of these documents.

Looking forward to reading your responses.

With my best regards

Nathalie Combourieu-Nebout
