

Pascale Braconnot
Editor
Climate of the Past

23 August 2018

Dear Pascale,

Thank you for your thoughts about Ilana and my manuscript.

I must apologise that the supplement was not provided. I was having large problems with the upload procedure on the website for the file and after trying again today are still having problems. It is currently available for inspection at <http://www2.geog.ucl.ac.uk/~ucfaccb/BrierleyWainer2018.cp-2017-145.zip> . I am emailing the editorial team to see if they can attach it manually to the manuscript records and press submit for me.

I also had not realised that the Nature Climate Change was seen as the official documentation for PMIP3. I've now referenced at the first introduction for PMIP. I have also added a citation to the Zhao et al. paper.

I hope that you find this sufficient information to initiate the publication procedure. However, do not hesitate to ask me if you would like something further.

Yours sincerely,
Chris Brierley
