Dear Dr. Combourieu-Nebout,

We submit for your consideration the fifth version of our manuscript "A Stalagmite Test of North Atlantic SST and Iberian Hydroclimate Linkages over the Last Two Glacial Cycles". We have made the change from "model age" to "age model", as requested, and have also updated the address of one of the co-authors. Setsen Altan-Ochir is now at École Normale Supérieure in Paris. Per the instructions for authors, Table 1 is now a Word file and the captions have been removed from the figures.

Sincerely,  
Rhawn Denniston
