Received and published: 22 January 2018

Dear authors,

We have now received the comment of the reviewers. Both reviews underline the potential of your research and the need to publish speleothem records from the studied area.

Please post your replies to all the comments on the discussion forum that explain how you want to amend your manuscript following the reviewer suggestions. If you post a revised version of your paper accordingly, I would like to see your corrections in track

C1

change mode.

I will give my decision on your document after reading these documents.

Looking forward to your responses. With my best regards

Nathalie Combourieu-Nebout
