

Interactive comment on “A revised Law Dome age model (LD2017) and implications for last glacial climate” by Jason Roberts et al.

Jason Roberts et al.

jason.roberts@aad.gov.au

Received and published: 6 November 2017

We thank the reviewers for their valuable reviews of this manuscript and constructive suggestions. We will be revising the work accordingly and have no doubt that this will assist us in making significant improvements to the work. Due to extended Antarctic field commitments this season this revision cannot be completed soon and we will therefore not submit a revision at this time. We will work with Climate of the Past to submit again as soon as possible.

Tas van Ommen

(On behalf of Jason Roberts and co-authors).
