

Last Millennium Reanalysis with an expanded proxy database and seasonal proxy modeling

Tardif et al.

Authors Responses to Reviewers - Final revision

In the following, comments are shown in bold, with our response shown in plain text.

Editor

Before I can accept the manuscript, I would like you to include a Statement on the availability of underlying data as a section of its own.

Following your suggestion, the statement on code and data availability originally included in the section *Code and data availability* has been divided in two separate statements in the *Code availability* and *Data availability* sections.
