We would like to thank Keely for providing a second review on our Introduction to the Special Issue on Climate of the Past 2000 Years: Global and Regional Syntheses. We are glad to read our short manuscript concisely outlines the remit of this PAGES 2K Special Issue. As noted in our response to Graciela Gil-Romera, we would prefer not to provide a map given we would like to keep the Introduction short and to the point, something we hope we have achieved.
