On behalf of my co authors I would like to thank Referee #1 for the positive comments made on the manuscript and the time spent to carefully read the text. We appreciate that the referee thinks the manuscript is well organized and constitutes a significant contribution to the understanding of long-term evolution of wet avalanches in Western European Alps.

Minor technical issues: Page 2, line 25: Delete 'a' in 2007a Page 4 line 1 (Heading): Change to: High-resolution seismic survey Page 25: Please put Table Heading above Table 1

The technical issues mentioned in the referee comments have been changed in the modified manuscript.
