Received and published: 21 August 2018

Dear Darrell Kaufman and Nick McKay,

We would like to thank you for commenting on our manuscript and apologize for the delay in our answer. We agree that all the datasets relating to the 4.2 ka BP event must be now available through public repositories. Here, we can only provide our datasets (Tell Tweini-Syria, Tel Dan-Israel, Tel Akko-Israel) as the other time-series belong to the authors mentioned in the manuscript. These datasets cannot be made available without official permission. But the point that you address is very pertinent and we will furnish our datasets in the revised version of our paper.

David Kaniewski & colleagues
