Dear Dr Loutre,

Re: Submission of manuscript “*CMIP6/PMIP4 simulations of the mid-Holocene and Last Interglacial using HadGEM3: comparison to the pre-industrial era, previous model versions, and proxy data*” by CJR Williams *et al.* to *Climate of the Past* (PMIP4 Special Edition).

Thank you very much for your most recent comments and emails. I have now made the necessary changes to the Data Availability section, consistent with the Copernicus editorial instructions, and have included as Supplementary Material the data going into the manuscript figures.

I very much hope that my manuscript now meets your technical specifications, and is deemed acceptable and ready for publication.

Yours sincerely,

A handwritten signature in blue ink that reads "C. R. Williams". The signature is written in a cursive style with a horizontal line underneath the name.

Dr Charles JR Williams, and co-authors
