Received and published: 1 July 2019

Dear Dr. Burgdorf and co-authors,

The discussion period for your manuscript is over, and two reviewers have posted comments. Both reviewers engaged thoughtfully with the manuscript, and I agree with their positive assessment of the work and its potential contribution to the field. The reviewers have several suggestions for additional consideration, some points of clarification, and technical corrections. My sense is that you can address the suggestions and concerns of the reviewers with relatively minor revision.

Please respond to the reviewer comments in the online Discussion forum. If you intend to make any changes to your manuscript in response to these comments, please clearly indicate the nature of these changes in your response. Once I have reviewed your response, I fully anticipate inviting you to submit a revised manuscript for further consideration.

Sincerely, Alberto Reyes
