Received and published: 28 May 2020

In our Response to RC1, a figure reference was mentioned without including the corresponding figure. Please find here the figure to the corresponding paragraph in line 24: "ENSO (and IOD)-induced SST anomalies are small in the Indian Ocean ($\sim 0.5\text{--}0.7^\circ\text{C}$, see Figure 2 of our manuscript and Roxy et al., 2014) relative to the background variability ($\sim 0.3\text{--}0.4^\circ\text{C}$ in the peak ENSO season from December-February; see Figure below)."
