

Dear authors,

I thank you very much for the revised version of your paper. You have either fixed or explained why you did not change the issues mentioned by the referees. The paper is therefore accepted for publication with the request to check the capitalization of some expressions. Of course, these are only small details, which is why this can be implemented with "technical corrections".

Once again I sincerely thank both referees.

Kind regards,

Chantal Camenisch

Non-public comments to the Author:

Dear authors,

I think "century" should be lower case in p. 6, line 22. "Blue book" appears in the paper in both upper and lower case. I suppose it should be capitalized in most cases. Possibly, on the other hand, "thermograph" should perhaps be lowercase on p. 10, line 13 (it makes of course sense to me that you capitalize the term in most cases). On the other hand, I suspect that "screen" should be lowercase on p. 11, line 32 and 35.

yours sincerely,

Chantal

Thankyou for your careful proofing. We have made suggested changes in the revision as well as addressing the request not to use colour cells in the tables 2 and 3 from the copyeditors (although we would note that this does somewhat reduce readability).
